## Description

**AIWA Mini Component Digital Audio Stereo System.** Model number NSX-V50. Used and pretty good condition, aside from the cd player's fickleness. Functions include: three-cd disc changer which is quite fickle, it sometimes works and sometimes doesn't but when it does it is quite good, It may be that the sampling isn't good enough because it seems to have problems reading certain discs; Dual tape deck with "sync-dub" and continuous play; tuner; video/aux; karaoke capabilities; super t-bass; remote control; and 4 (two are pictured) identical speakers at 50w apiece with front-surround sound. Only two speakers can be connected at once - I have the extra two because a friend (BDK) gave them to me. These speakers have dents here and there on the casing but do not effect operation. Winning Bidder agrees to make arrangements and pick up item in Brooklyn, New York, since cd players tend to be fragile in transit and the USPS is not completely trustworthy to handle these things.

## Description

**Red Earmuffs.** 4 inch diameter earmuffs sewn onto a headband. One side of the headband is a little awkward as it looks like someone attempted to re-sew the earmuff to the band but refolded the band fabric incorrectly. Hence, there is a strange fold in the headband area where there shouldn't really be one. Otherwise, the item is in good condition.

## Description

iMac Computer, Hewlett Packard Deskjet 970Cxi Printer, and Sony Spresca CD-ReWritable Recorder. Descriptions of items below. It is highly recommended that winning bidder picks up these items in Brooklyn, NY, although shipping is also a possibility (I find that machines and electronics don't like to travel in general).

**Strawberry iMac.** This computer has a G2 processor and is about three years old. I believe it is also maxed out on memory (256mb?), to make it easier and quicker to use photo-editing programs, etc... As you can see by the photo, there is a blue "Gus Gus" sticker adhered to the top of the monitor.

Everything is in good working order.

- Includes Troubleshooting Handbook
- The following software and discs: Software install; Software restore; Adobe Pagemill 3.0; Quicken Deluxe 98; World Book Disc 1 and 2
- Internal 56k modem
- CD drive
- 4 USB ports
- 6 gB hard drive

**Sony Spessa CD Burner.** About a year and a half old. Rarely used and in excellent condition. Includes Discribe and Hotburn driver disk, as well as CD Stomper software.

- External USB Interface Drive for Macintosh and PC Systems
- Records CD-R and CD-RW discs
- Create cd-rom and cd audio discs
- Includes software for Macintosh and Windows
- 4X CD-R Write, 2X CD-RW Write
- Model # CRX100E/X
- CD-ROM reading speed: 4X typical (6X max)
- Access time: 150 ms average
- Buffer memory: 1 MB
- Data transfer rate: Sustained: 600kB/sec (Mode 1, 6X reading speed)
- Includes manuals printed out from the web

**Hewlett Packard Professional Series Deskjet 970Cxi Printer.** About a year old. In good condition except that the automatic two-sided printing function is a little fickle. So if you don't have a need for this, than printer works great. Includes driver disk, as well as User's Guide.

- Prints up to 12 ages per minute in black, 10ppm in color
- "Whisper" quiet
- Has "job cancel" button
- Has HP's Enhanced Color Layering Technolgy to print super high quality photographs and documents
- Power cord and USB interface cable included
- Ink cartridges should probably be replaced
